

Exercise -1

1)

Golden academy is a leading academy in the world. it conducts an award ceremony annually to honor achievements in the field of motion picture and television series.

Nominations for the award ceremony are selected by an expert panel of judges.

Judges first need to select award categories and then need to select suitable nominees for the selected Award categories.

Judges have the right to add, delete, and modify award categories and its nominees at any given time

Judges also need to select special awards which are selected by the panel of judges only.

.If there is any concern judges should contact admin.

After finalizing award categories and nominees judges need to handover the award categories and its nominees to admin.

Judges need to handover list of special awards winners to the admin as well.

In this system there are two types of voters as guest voters and member voters.

Guest voters are eligible to vote under popular category only. One must register to the system before voting.

Member voters are already registered in the system and they need to log in to the system by entering their member id and password.

Guest voters can browse the “Popular” award category and cast their vote.

Only Member voters can browse the “Best” category and cast their vote. Member voters are also eligible to vote in “Popular” category as well.

If there are any errors or issues during the voting process voters can report or suggest to admin about them.

After casting vote voters can also reach to public comment section and post their opinion regarding the process and also can view and reply to others opinions as well.

Admin needs to display the voting instructions and rules and regulations to the voter before they vote.

Admin needs to have the facilities of the add / update/ modify members or their information such as name, address, email or phone number.

Admin needs to Calculate the votes separately as normal votes and member votes and create results report. Report needs to have analysis like nominations that got highest votes, least votes and names of judges etc.

Admin Needs to display results as award and next to that the winner as well as the number of votes they got, the results of the special award winners who decided by the judges.

2)

Nominations for the award ceremony are selected by an expert panel of judges.

Judges first need to select award categories and then need to select suitable nominees for the selected Award categories.

Judges have the right to add, delete, and modify award categories and its nominees at any given time

Judges also need to select special awards which are selected by the panel of judges only.

.If there is any concern judges should contact admin.

After finalizing award categories and nominees judges need to handover the award categories and its nominees to admin.

Judges need to handover list of special awards winners to the admin as well.

In this system there are two types of voters as guest voters and member voters.

Guest voters are eligible to vote under popular category only. One must register to the system before voting.

Member voters are already registered in the system and they need to log in to the system by entering their member id and password.

Guest voters can browse the "Popular" award category and cast their vote.

Create results report

Display results

3) CLASSES

1) Voters

2) Member Voters

3) Guest Voters

4) Judges

5) Nominations

6) Awards

7) Public Comment Section

8) Admin

9) Report

Exercise-2 CRC CARDS

Class Name: Judge	
Responsibilities:	Collaborations:
Select Nominations.	Nominations
Select award categories.	Awards
Select special awards.	Awards
Handover award categories and nominations.	Admin

Class Name: Nominations	
Responsibilities:	Collaborations:
View Nominations.	Judge
Add/delete/Modify Nominations.	Admin

Class Name: public comment section	
Responsibilities:	Collaborations:
Add comment	Admin

Class Name: Voters	
Responsibilities:	Collaborations:
1.View award categories and nominations.	Guest voters
2.Casting vote.	Member voters
3.View results.	Admin
4.Contact admin if there are any issues or errors.	

Class Name: Guest Voters	
Responsibilities:	Collaborations:
1.Register for the online voting system.	Voters
2.View award categories and nominations under "Popular" category.	Admin
3.Casting vote.	Awards
	Nominations

Class Name: Member Voters	
Responsibilities:	Collaborations:
1.Log in to the online voting system using the member ID and password.	Voters
2. View award categories and nominations under "Best" category.	Awards
3.View award categories and nominations under "Popular" category.	Admin
4.Casting vote.	Nominations

Class Name: Report	
Responsibilities:	Collaborations:
Create report	
Display report	

Class Name: Admin	
Responsibilities:	Collaborations:
Calculate Votes	Vote
Update or add members	Member
Display results	
Debug errors in voting	Voters
Modify or Update Awards	Awards

Class Name: Award	
Responsibilities:	Collaborations:
Display award category	Judge
Add/delete/modify Awards	Admin
